Professional Summary

Computer Science student pursuing B.Tech in Computer Science Engineering and BS in Data Science & Applications at IIT Madras. Experienced in Python backend development, Linux system administration, REST APIs, Bash scripting and machine learning fundamentals through internships, academic projects and open-source contributions.

What I Can Deliver From Day One

Backend API Development • Linux System Administration • Bash Automation • REST APIs • Python Automation
• SQL & PostgreSQL • Machine Learning Fundamentals • Git/GitHub

Education

Arya College of Engineering & IT, Jaipur	2024–2028
B.Tech in Computer Science Engineering	CGPA: 8.82/10
Indian Institute of Technology Madras	2024–Present
BS in Data Science & Applications (Diploma Level)	

Technical Skills

Languages: Python, C, C++, Bash
Backend: FastAPI, REST APIs
Databases: PostgreSQL, SQL
Machine Learning: Scikit-learn, Pandas, NumPy
Operating Systems: Linux
Developer Tools: Git, GitHub
Cloud: AWS Cloud Foundations

Experience

Linux System Administration Intern	May 2026 – Jun 2026
GIP Technologies Pvt. Ltd.	
- Developed Linux administration utilities using Bash scripting. - Managed users, groups, permissions, password policies and system administration tasks. - Automated routine Linux operations using shell scripts following industry practices.	

Projects

Linux User Management Toolkit	Bash, Linux
- Developed a modular Linux administration toolkit for user and group management. - Implemented user creation, deletion, password reset, account lock/unlock, group management and secure password generation. - Added validation, privilege checking, logging and reusable shell modules following Linux administration best practices.	
Audio-to-Notes Generator	Python, FastAPI
- Developed a backend application that converts speech into structured notes. - Built REST APIs for transcription and summarization workflow.	
Laptop Price Prediction System	Python, Scikit-learn
- Built a machine learning model for laptop price prediction using feature engineering and preprocessing. - Developed a prediction interface using Python for real-time inference.	

Open Source

- Contributor – GirlScript Summer of Code (GSSoC)
- Contributor – NSOC
- Contributor – SSOC

Certifications

- IIT Madras – Advanced Certificate in Machine Learning
- AWS Academy Graduate – Cloud Foundations
- Google Cloud – Gen AI Academy
- HackerRank – Python (Basic)
- HackerRank – SQL (Basic)
- Cisco Networking Academy – C Essentials 1
